## C & CV SERIES

**ANSI B73.1 Chemical & Process Pumps**

**PUMPING SOLUTIONS TO A WORLD OF INDUSTRY**

**Tuff Pumps** for "tough applications" and few can be tougher than erosive and/or corrosive chemical and process liquors ~ exactly the type of media **Tuff Pumps** had in mind when it entered into the design and manufacture of centrifugal chemical/process pumping plant.

Whilst still one of the very few "family owned and run" pump businesses left in the pump industry, **Tuff Pumps** has an extremely comprehensive, effective, high quality, reliable pump range that is backed-up by a very personal pre and after sales service that is second to none.

**Tuff Pumps** new **C Series** is a horizontal range of **ANSI B73.1** pumps in 21 standard sizes and numerous material; from grey cast and ductile iron, through carbon and stainless steel, to more exotic stainless steel alloys. The **CV Series** is a vertical cantilever version for tank mounting.

Using established criteria, years of experience, and state of the art design and application know-how, **Tuff Pumps** has developed a heavy duty **ANSI B73.1 Chemical/Process** pump range ~ designated as its **C Series** ~ and is successfully applying the range within a wide variety of market sectors and applications; a few of which are specified below:-

### **Food & Beverage:**

Liquor Distilling & Transfer  
All Corrosive & Non-corrosive Effluents  
Brewing & Bottling Plant Process Liquors  
Small Particle, Low Density Solids Transfer

### **Paper, Pulp & Process:**

Chemical & Process Effluents  
De-watering & De-inking Process Liquors  
All Corrosive & Non-corrosive Liquors  
Low Consistency Pulp/Stock

### **Chemical & Petro-chemical:**

Non-API 610 Chemical & Process Liquors  
Chemical Transfer & Effluents  
Process Transfer & Effluents  
All Corrosive and Non-corrosive Liquors
